Dongming sanxin wood industry co.,ltd did using
advanced production technology and high-quality raw materials, we produce coarse lowdensity board. The product weight is 10% lighter than ordinary density board, and all physical performance indexes meet international standards. While reducing the weight, it still maintains good strength and excellent processing performance. The board surface can be painted directly. It is widely used in manufacturing furniture, handicrafts, lines and other industries

Density 680 - 820kgs/M3
Size 1220*2745,1220*3050,1220*3660,1525*2745,1525*3050 1525*3660,1860*2745,1830*3660,2440*2745,2440*3660
Thickness 2mm--25mm
Glue P2
Formaldehyde emission: E0,E1 E2, Carb P2
Tolerance Thickness +/-0.5mm
Usage Furniture; Door; Cabinet, etc
Certificate CARB
Supply Capacity: 30000pieces/month
Delivery time Within 15-20 days after we received your deposit
