

Dongming sanxin wood industry co.,ltd did using advanced production technology and high-quality raw materials, we produce coarse lowdensity board. The product weight is 10% lighter than ordinary density board, and all physical performance indexes meet international standards. While reducing the weight, it still maintains good strength and excellent processing performance. The board surface can be painted directly. It is widely used in manufacturing furniture, handicrafts, lines and other industries

Density 680 - 820kgs/M3

**Size 1220*2745,1220*3050,1220*3660,1525*2745,1525*3050
1525*3660,1860*2745,1830*3660,2440*2745,2440*3660**

Thickness 2mm--25mm

Glue P2

Formaldehyde emission: E0,E1 E2, Carb P2

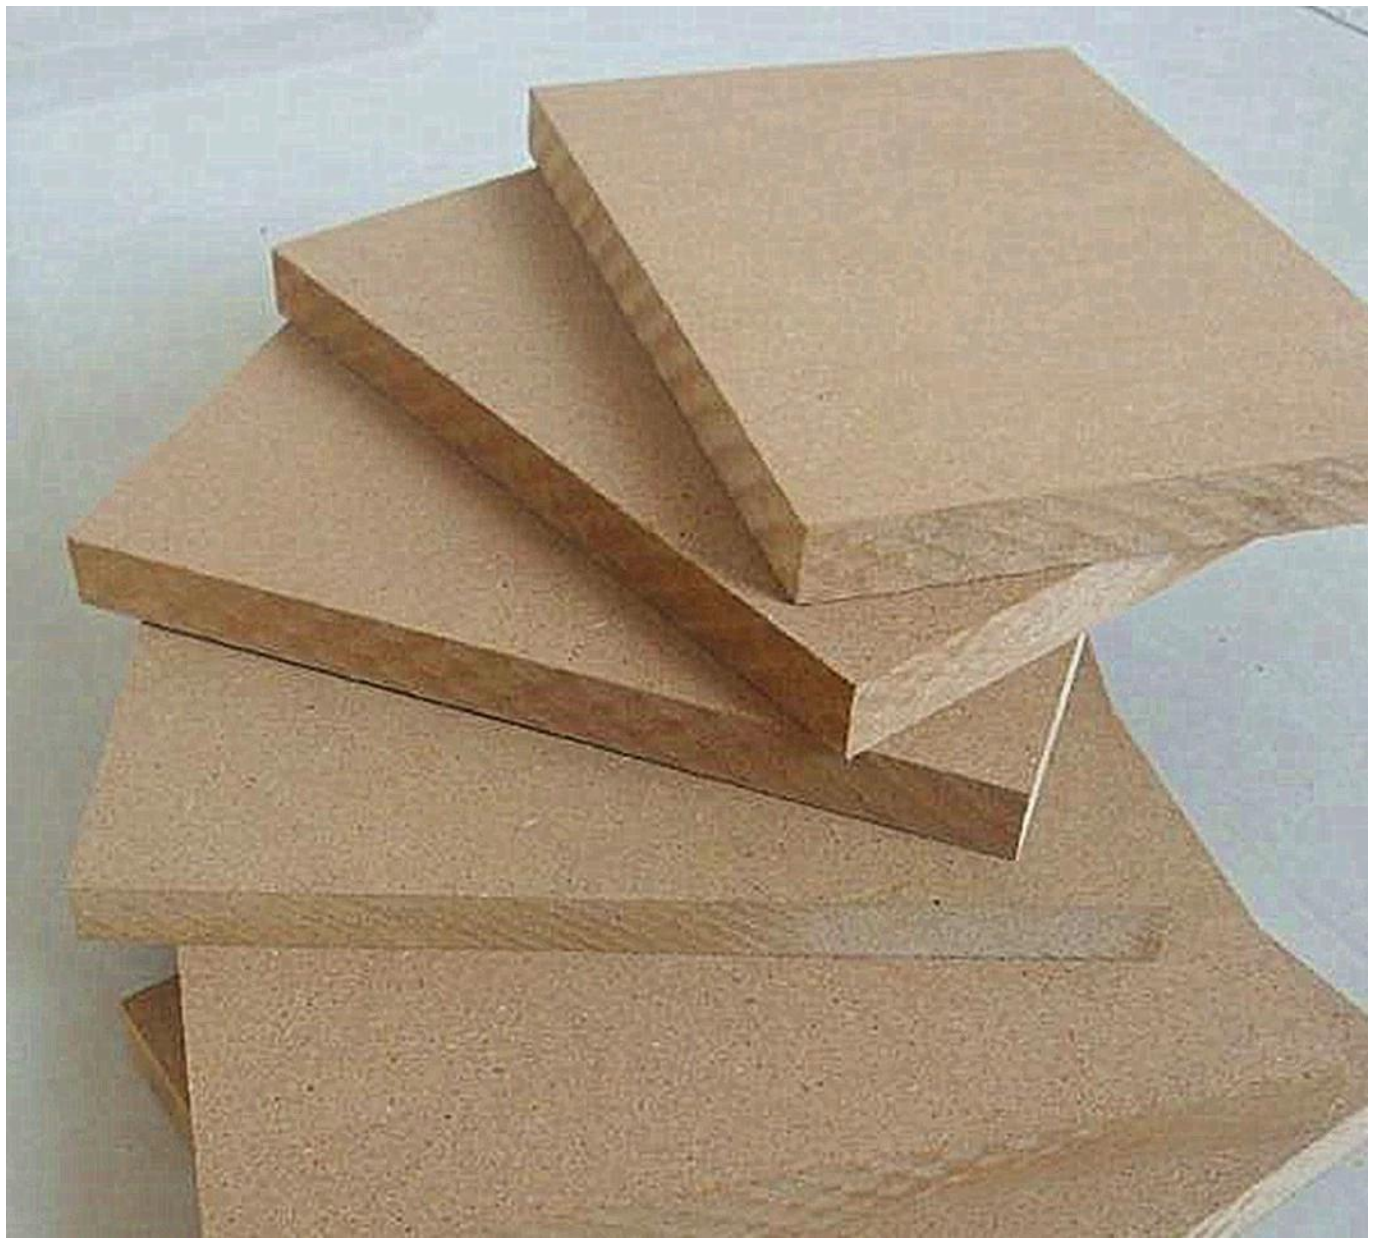

Tolerance Thickness +/-0.5mm

Usage Furniture; Door; Cabinet, etc

Certificate CARB
