

MDF Skirting Boards are great for many reasons. Unlike Pine, there's no knots or imperfections and MDF Skirting Boards require less time to prepare. This is because all it needs is sanding down for smoothness and then primed ready for the final paint finish. MDF Skirting Boards are also great as it's quick to get prepared. Skirting and architraves are good examples of what can be made, along with certain toys and so on.

Primed MDF Baseboard
